

Our Mission

The Bilger Family's mission is to grow high-quality grapevines in the challenging Texas Hill Country AVA and produce great-tasting wines from our grapes. These difficult-to-grow grapes will be crafted into wonderful flowing blends to satisfy your palate. A distinct selection of single-varietal wines will be born when the vintage is appropriate. Bilger Family Vineyards, and Adegä Vinhö, our winery, are the product of a thirty-year dream of founder Andrew Bilger.

Pastoral and historic Stonewall, Texas, is our beautiful Hill Country home where you will find co-founders Michael & Elena, Andrew's brother & wife, and the rest of the Bilger Family. The Bilger Family, and staff, are working diligently so that our grapes receive all the care and attention required to craft our fine Texas wines. Beyond the grapes, vines, and wines, the Bilger Family is deeply dedicated to good stewardship of our land and environment by adhering to sound, healthy, sustainable agricultural practices, thus allowing us to pass the land forward in better condition than when we acquired it.

We spend locally within our community, humbly giving back to our neighbors through our time, our service, and our profits, and finally measuring our success in the amount of good we have accomplished over the past year.

A TEXAS WINERY IN STONEWALL
